

TUITION PAYMENT OPTIONS

Many of you were asking us to simplify the process of paying the tuition. We are pleased to tell you that now we offer an option of **automated deduction from your bank account** (known in banking circles as ACH). It means that we can deduct your tuition amount directly from the bank account designated by you. We would do it on or after the 15th of each month. We hope to have everything in order **by September 15**.

Think about it: you don't have to remember to write any more tuition checks nor worry about forgetting to pay your tuition. We hope many of you will take advantage of this option as **there is NO extra cost** for you for this service. More information about this will be available during registration.

Also, for those who prefer to pay tuition with credit card, we can continue to offer this option. However, since the credit card fees skyrocketed in recent years, to cover the costs an addition of 5% will be charged to the tuition amount..

Many of you took advantage of the option to receive your invoice via e-mail instead of getting them in the green envelopes. We hope that more families will sign up for the "email option" as it helps us to save some trees as well as hours of stuffing the invoices into the green envelopes.

If you are interested in any of these options, please fill out the form below and bring it with you on the registration day.
